FEATURE: DARK PRESENCE

Due to your dabbling in dark magic, commoners often find you off-putting and at times frightening. Common folk try to keep their dealings with you short and brief, sometimes at a cost to themselves. Those who are desperate will occasionally seek out your services when there are no other legal or reputable options available to them.

VARIANT HAG: HAGGLER

You've struck bargains with devils and haggled your skills and wares to travelers unfortunate enough to have wandered into your lair. You have an innate sense of whether you are receiving a fair price or if there is wiggle room for a better deal when you are haggling over goods or services.
